Aug.	363	40	5	85	34
Sept.	229	25	11	54	39
Oct.	178	25	6	58	45
Nov.	225	25	6	82	49
Dec.	207	23	12	79	41
Total	2,966		68	799	447

The different classes stand as follows:

Fiction, 2,331; Sociology, 98; Natural Science, 84; Useful Arts, 73; Fine Arts, 51; History 63; Travels, 118; Biography, 47; Poetry, 33; Literature 37; Miscellaneous, 31.

Largest daily circulation, 60 books given out on July 29.

Respectfully submitted,

ELLA M. BRIGHAM,
Librarian

Report of the West Rindge Branch Library.

FOR THE YEAR ENDING DECEMBER 31, 1916

Whole number of books circulated, eleven hundred and fifty eight. (1158). Of this number one hundred and seventy-three were from the "Ingalls Library" and circulated through the Branch Library. Thirty books were sent to the Ingalls Library.

Whole number of cards issued to December 31, 1916, six hundred and fourteen. Thirty-six new names have been added to the list of patrons during the year.

The different classes stand as follows. Fiction, 771. General works, 62. Sociology, 39. Philology, 16. Natural Science, 26. Useful Arts, 39. Fine Arts, 33. Poetry 37. Travel, 30. Biography, 20. Modern History, 21. Unbound Magazines, 54. Miscellaneous, 31. Juvenile 301.

We are pleased to report that the public school has made good use of the books and magazines.

Miss Ware has added about sixty new books during the year. Others have been added by Publishers and other friends of the library, including two valuable works by Mr. Wayland J. Whitney of Springfield, Mass. Also, Mr. J. Henry Locke has presented the library with forty-eight volumes of "Picturesque America" which contains beautiful illustrations on steel and wood by eminent American Artists.

Respectfully submitted,

M. LIZZIE WETHERBEE,
Librarian

Trustees of the Report of the Ingalls Memorial Library.

FOR THE YEAR ENDING JANUARY 1st, 1917

To the Town of Rindge:

We have the honor to submit to the Town, the following report of the Ingalls Memorial Library.

The circulation has somewhat diminished during the past year, owing to bad weather and other accidental causes, but it is good, nevertheless, for a town with the population of Rindge. The usual number of books has been added from the money appropriated by the town, and in addition the library has received a collection of books from the private library of the late Mr. Herbert Ingalls, through the kindness of Mr. Herbert I. Wallace. During the past Summer some repairs were necessary to the roof and gutters of the building, the expenses of which have been paid from the town funds, but the Trustees consider it very desirable to put electricity into the Library another year, and for that the annual appropriation will not suffice.

They therefore request from the town the regular amount of three hundred dollars, ($300.00) for the running expenses, and a sufficient sum to ensue that the building is thoroughly and carefully wired.

The report for the Branch Library at West Rindge is appended.

Respectfully submitted,

GEO. M. HARMON,
MARY LEE WARE,
HARRIS H. RICE.

Report of Electric Light Committee.

At the last March Town Meeting, the Town of Rindge, voted to install a municipal electric light plant, in the streets of the town, for the distribution of electricity for Commercial and Power purposes.

To start operations, you voted an appropriation of $16,000.00 for the purpose, and placed the same in the hands of the Electric Light Committee, to work in conjunction with the Selectmen, to install the work.

The Electric Light Committee begs to submit to the Town the report of its operations during the past year.

Your committee started at once—

In the first place, Albert E. Heustis of Fitchburg, Mass, was engaged to supervise the work, and assist the committee in buying material, furnishing labor, etc, etc.. The committee then entered into a contract for five (5) years with the Derry Electric Co. of Derry, N. H., to supply electricity for the service delivered at the Rindge-Squantum Town Line.

The Town then started building a Pole Line through its streets, to serve the inhabitants of the town—this part of the work can be observed by all of the Town's people.

The Line covers, approximately ten miles of Pole line construction. The building and equipping of a Transformer house in the center of the town for the control and distribution

of electricity. Ninety-Three, 60 Candle Power street lights have been installed, from which revenue is being derived.

A part of the Pole line is owned entirely by the Town, while another part is in joint owner-ship with the Telephone Co.

The materials and workmanship used in the construction of this line, are of the best, and by having the line built properly, at first, will save the Town considerable money in the maintainance account.

The report of your committee includes all money received and expended, both for the construction and maintainance of the plant to February 1, 1917. Considerable of the money spent comes under the head of maintainance, in that you have bought, Transformers, Meters, and connected house services, and you now have on hand a substantial amount of material, which will be sufficient to maintain your line as far as repairs and house services go, for some time to come.

Account of Expenditures.

AGREEMENT MADE THIS 28th DAY OF JULY, 1916. BY AND BETWEEN THE NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY AND THE TOWN OF RINDGE.

Corporations duly organized according to law, and hereinafter referred to as the Telephone Company and the Town.

Whereas the Telephone Company is the owner of a line of poles upon the streets hereafter named in Rindge in the state of New Hampshire and the other party hereto has received a grant of locations for the erection of poles identical with the locations above referred to, and desires to make use of some of the poles now standing therein.

18 poles on Pearly Pond Road from B. & M. R. R. to School house Distirct, No. 3.

99 poles on West Rindge Road from B. & M. R. R. to Winchendon Road, Rindge Center.

178 poles on East Rindge Road from Rindge Center to School House, East Rindge.

17 poles on New Ipswich Road from East Rindge Road to driveway leading to residence of H. H. Rice, a total of three hundred and twelve (312) poles as shown upon the plan hereto attached and made a part hereof.

Whereas it is desired that the agreement relative to the erection and construction of said poles and lines shall be reduced to writing.

Now it is Agreed as follows:

The Telephone Company hereby grants to the Town its successors and assigns, an undivided one-half interest in such of the above named poles as are suitable for the purposes hereof. The Telephone Company shall upon the execution hereof erect in said other locations, poles suitable for the purposes hereof.

All poles included herein or erected in renewal thereof shall be used and owned in common between the parties hereto subject to the provisions of this agreement. Telephone Company shall remove and retain its old poles.

The Town shall pay to the Telephone Company upon receipt of bill therefor one-half the value of its said suitable poles and one-half the cost of erecting said new poles, said amount not to exceed six dollars ($6.00) per pole. Each party shall attach its wires and fixtures to said poles at its own expense. The Telephone Company shall maintain said poles and the Town shall pay to it one-half the expense incurred by it therefor.

In Witness Whereof the parties hereto have caused these presents to be signed, and their corporate seals to be hereto affixed by their respective officers thereunto duly authorized, the day and year first above written.

Report of the Superintendent of Schools.

To the School Board of Rindge:

I beg to submit the following statements, statistical tables and recommendations as my first annual report as Superintendent of Schools. This is the thirteenth report under district supervision.

From the beginning of the school year I have been impressed with the evident desire of your board to have the best schools that local conditions will warrant. The school district appears to sustain this attitude with liberal financial support. Your per capita cost is larger than is the case in more populous towns. This must necessarily follow where the school population is scattered in several small schools and where an effort is made to secure a high standard in the teaching force.

The only comment that I care to offer on the financial side of the situation is to call attention to the remarks made by your Superintendent in his annual report last year on the matter of transportation costs and to add my hearty approval to the sentiments expressed by him. I do not believe that it is justice to all the pupils of the whole community to expend on transportation charges for a single pupil an amount more than double the average per capita cost for all expenses. I believe that the district should take some action to remedy this condition, not so much for the actual saving of the money cost as for a fairer expression of what I hold to be the spirit of the transportation problem.

Generally speaking your schools appear to me to be maintaining a satisfactory standard. The school at East Rindge is

in excellent condition. The same is true of both schools at the Center. At West Rindge a few minor problems have arisen. It appears to me that there has been, in one or two instances, a lack of the proper spirit of cooperation. I believe it would be to the advantage of this school if this section of the town were represented on the School Board, and I trust that action looking to this result may be taken at your annual meeting.

Owing to an unfortunate defect in the vaccination law two pupils who should be in school are debarred. I trust that the legislature now in session may remedy this defect so that such a situation may not again obtain.

Your school buildings are in reasonably good condition except for two features. In the early spring I shall make specific recommendations for the improvement of the condition of the out-houses and later for the screening of the school-rooms. I advise that you provide in your budget a small appropriation for these two items.

I would also call attention to the desirability of something being done to improve the appearance of the school grounds.

There has been during the past year an advance of about one hundred per cent in the cost of supplies. As there is a fairly good stock on hand and, as I am trying to buy in large amounts in conjunction with the other towns of the district, thus taking advantage of the best prices obtainable, I trust that we may not find it necessary to ask for a larger appropriation for this item.

I should suggest that the Board take early action to obtain a supply of fuel for next winter and thus avoid the conditions that have been recently encountered.

I am suggesting in my report to each of the four school boards of the district the question of employing a school nurse. I have prepared a bill for presentation to the legislature allowing school boards the right to combine in the joint employment of a nurse to inspect the schools of several towns and adopt some feasible "follow up" system that will aid in remedying the physical defects that may be discovered in the pupils. I look upon this as one of the most crying needs of our schools—not specifically in this town—but generally.

In connection with the schools at the Center I wish to ask your consideration of the feasibility of such a readjustment as will allow one year of High school work to be done there. The two schools as they now exist are small but on the other hand are too large to combine as a single school and obtain efficient results. I do believe, however, that the first six grades might be put into one school without material loss in results. I would then suggest that the seventh and eighth grades and a first year of high school be combined in one room as a three-year junior high school. If we take into consideration the amount that the town would be called upon to pay out for high school tuitions this arrangement can be put into effect without increasing the total cost of the schools, the boys and girls can be kept at home for an additional year, efficient results can be obtained and undoubtedly some would get this additional year of schooling who would not go away to high school and, in addition, the parents would save costs of transportation which are a considerable item. I believe that this plan is entirely sound and recommend that you give it serious consideration.

With a full appreciation of your devotion to your duties and your cordial and helpful attitude towards those under your charge,

I am, yours very truly,

O. H. TOOTHAKER,
Superintendent

Fitzwilliam, N. H., February 15, 1917.

Report of the Librarian.

FOR THE YEAR 1917

Only about thirty new books were added during 1917, because the purchase of the regular yearly supply of new ones was unavoidably delayed until January. All of these will be ready for circulation the first of February. I think the decrease in circulation of fiction is due mainly to the fact that people have been too busy to read rather than to the lack of new books. The circulation of magazines and certain classes of books has been good.

A fine oil painting of Hon. Marshall P. Wilder, a present from his sister, Mrs. Bigelow, has been hung in the art-room.

For the museum we have received, from Mr. Frank Robbins, an old fashioned tailor's goose, which must be very ancient.

The Red Cross has found a home at the library both comfortable and convenient, where Rodney Wallace's kindly face looks down upon the busy workers in benedition.

Following is the Table of Circulation for 1917.

	Books	Daily Average	West Rindge Library	Unb. Mags.
Jan.	256	27	14	28
Feb.	208	30	7	46
Mar.	234	26	10	74
Apr.	233	27	14	47

May	230	29	12	25
June	222	25	8	24
July	280	40	8	52
Aug.	307	34	13	43
Sept.	216	24	13	50
Oct.	239	27	15	44
Nov.	162	20	12	43
Dec.	185	23	17	53
Totals	2,772		143	529

The different classes stand as follows:

Fiction, 2,002; History, 118; Biography, 109; Travels,109; Sociology, 76; Useful Arts, 122; Natural Science, 81; Fine Arts, 32; Poetry, 37; Miscellaneous, 86.

Circulation of Juveniles, 923

Largest daily circulation of books, 75; given out on August-18

Respectfully submitted,

ELLA M. BRIGHAM,
Librarian.

January 18, 1918

Report of West Rindge Branch Library.

FOR THE YEAR ENDING DECEMBER 31, 1917

Whole number of books circulated, ten hundred and ninety-eight, (1098). Of this number ninety-four were from the Ingalls Library, and circulated through the Branch Library. Thirty-three books were sent to the Ingalls Library.

The different classes stand as follows: Fiction 630; Sociology, 72; Useful Arts, 76; Fine Arts, 21; Philology, 23; Travels, 23; Biography, 23; Modern History, 34. Poetry, 63; Natural Science, 48; General Works, 41; Unbound Magazines, 10; Miscellaneous, 34; Juvenile, 398.

Twenty-three names have been added to the list of patrons during the year; the whole number being 635.

Among the new books which Miss Ware added to the Library are many very instructive ones upon Home Economics, and others.

Friends of the Library have given other books which are much appreciated. The Magazines and Pamphlets are also appreciated. We are glad to report that the school makes good use of the Library.

We are daily receiving the "Official Bulletin" from Washington, D. C.

Respectfully submitted,

M. LIZZIE WETHERBEE,
Librarian.

Report of the Ingalls Memorial Library.

JANUARY 1, 1917–JANUARY 1, 1918.

To the Selectmen of the Town of Rindge:

The Report for the Library for this year has nothing of special moment to record beyond the items of repairs to the building, which are mentioned in the Treasurer's Report, and the data of circulation as given by our faithful and helpful librabian, Miss Brigham It is a great satisfaction to know that the books are so much in demand in spite of the war activities, as shown by the total number of books and magazines issued at both the Central and Branch Libraries The Trustees wish especially to express their pleasure that the Ingalls Memorial Library should be able to open its doors for the Red Cross work, as they know that it has the wish of the generous founder that his Library should be the happy centre of all the best activities of the Comunnnity.

In closing we must ask for the annual appropriation of three hundred dollars, and the interest of fifty dollars on the note of the Town of Rindge for the current expenses of the coming year.

Respectfully submitted,

MARY LEE WARE, Sec.

Report of
Electric Light Commissioners

The electric light committee submits to the town the report of its operation during the past year, first the expenditures on extended lines at Lake Sunshine as follows:-

Three transformers	$100 64	
Six meters	40 08	
Cross arms and poles	96 00	
450 lbs. wire at 35½ cents	169 75	
Labor	93 53	
Making a total of		$500 00

Now we have on hand the following stock bought this past year.

Two transformers	$60 38	
Fifteen meters	102 00	
Two reels of wire, No. 6	200 00	
Six empty reels	13 00	
Guy wires, torch, bolts, lamps, and washers	75 68	
		$451 06

Stock on hand from last year

Poles, tools, etc.	$250 00

On the original line we have installed ten new meters, one new transformer, and replaced one transformer.

Amount of money uncollected from subscribers now due $68 18

We now have installed fifty-three meters, minimum charge being one dollar per meter, per month. Also ninety-one street lights which the Public Service Commissioners of Concord say are worth from fifteen to eighteen dollars per light, if owned by a corporation.

Our bills are all paid with the exception of one unpresented bill of Brown Bros. of Winchendon, not exceeding fifty dollars, and the sixteen thousand dollar notes of the Monadnock National Bank.

MARCIA E. CLEAVES,

Report of the Superintendent of Schools

To the School Board of Rindge:-

I am submitting herewith my second annual report, this being the fourteenth of the series under district supervision.

The comments that I shall offer are merely a repetition of those already made to you at the regular monthly meetings that have been held throughout the year. I. believe that these meetings held regularly and attended by the members of the Board and by the Superintendent have been productive of much good as they have kept those in charge of the school system in full accord regarding the plans and purposes being carried out; have eliminated any possible criticism of "one-man" authority; have put the business affairs of the district on a sound basis and have, in every way, been helpful in systematizing the work of administration.

In view of all the problems that have been encountered I believe that I can say that the schools of Rindge have, during the past year, been conducted with as high a degree of success as could be reasonably expected. At the opening of the present school year in September only one of last year's teachers returned, Miss Boucher at East Rindge. This made it necessary to secure four teachers, two from Fitchburg Normal, one from Keene Normal (all without experience) and one a young lady with two years' college training and a brief teaching experience.

Since the opening of the present year the school at East Rindge has fallen off very largely in numbers on account of the

removal of several families so that, at the time of my last visit, there were but seven pupils in attendance. I have in my hands the resignation of Miss Boucher, to take effect March 29. If present conditions promise to continue I should recommend that, from the above named date, the school be closed for the remainder of the school year and the pupils transported to the Center as no school can maintain interest with so small a number of pupils.

During the past summer the residents of District No. 6 petitioned your Board for the reopening of the school in that district. After due hearing the Board decided favorably and ten pupils enrolled. The number soon began to diminish through removals from town until at the close of the fall term there were but four in attendance. As there was no prospect of increased numbers the only course to follow was to close the school, transporting the few pupils still left in the district to the Center.

At the close of the last school year the Center schools suffered a decided loss in the withdrawal of Misses Green and Goodridge, both of whom obtained more desirable positions in Massachusetts. Following the recommendations made to you last year a reorganization was effected in these schools allowing for work to be done covering the first year of high school. While the number taking this work (four) has been fewer than hoped for I believe that the plan has been a success, that these pupils will be qualified to undertake the work of the sophomore year in such high school as they elect to attend and that the other pupils in the school have not suffered. The teachers in charge have shown a commendable spirit and the work accomplished has been very satisfactory.

In my report of last year I commented rather unfavorably on the situation at West Rindge. I am pleased to report that this school has shown marked improvement and at the present time stands as well as any in town—possibly the best. It is much to be regretted that there are still two pupils in this section who should be in school, but cannot be admitted on account of the requirements of the vaccination law.

On account of war conditions and the consequent high costs of practically everything that the district needs as well as the scarcity of capable teachers we shall be confronted by problems that will require careful study in their solution.

As the number of pupils in the present eighth grade is small I am suggesting for your consideration the elimination of the High school work at the Center (for next year) and the combining of these two schools under the direction of one teacher. I believe that this plan is feasible and that it will effect a substantial saving financially.

The last session of the legislature, during a temporary lapsus mentis, passed a law which decided complicates the financial problem for the present year. Heretofore the fiscal year has ended on February 15. Under the enactment above referred to the fiscal year beginning on February 15, 1917, has been extended to August 31, 1918, thus adding substantially a half-year of expense that must be provided for at your annual school meeting in March that is, this meeting must appropriate money to carry the schools through the present school year and also for a full school year from September first next. In order to do this without entailing undue hardship upon the district it will be necessary to seek out and put into effect every economy that is possible without lowering the standard of efficiency in the schools. This may involve shortening the school year to 34 weeks, but I should not advise this being done except as a "last resort".

The screening of all school-rooms and out-houses which was accomplished last summer brought about a decided hygienic improvement. For the immediate future I see no special outlay upon the school plant except that a beginning should be made in providing modern adjustable seats for the pupils. This need shows itself most markedly at West Rindge and I should advise that at least a few seats of suitable type be provided there during the coming summer. Your fuel costs will be much larger next year than ever before as there is an increase of about 40 per cent

in the cost of wood and transportation will continue to be a large drain upon your finances.

Appreciating your faithful and conscientious service and thanking you for your hearty cooperation, I am

Yours very truly,

O. H. TOOTHAKER,
Superintendent.

Fitzwilliam, N. H., January 31, 1918.

School Calendar

In view of the uncertainies as to length of school year and other unforseen problems that may arise it seems wise to make no recommendations at this time as to exact dates of opening and closing schools for the next year.

SCHOOL SAVINGS BANK

During the past year the pupils have continued their savings bank deposits in a highly commendable manner. For a time at least this plan will be largely displaced by the equally desirable "thrift Stamp."

ROLL OF PERFECT ATTENDANCE

School Year 1916–1917

For the full year: None.

For two terms: Harvey Wilder, Alfred Gauthier, Richard Rice, Clara Cleaves.

For one term: Margaret Fuller, Richard Stearns, Emily Wood, Roland Goddard, Amy Goddard, Fredabelle Hale, Mabel Todd, Richard Rice, Ralph Wilder, George Wood, Francis Coburn, Marion Maxwell, William Wilder.

Report of the Librarian

FOR THE YEAR ENDING DEC. 31, 1918.

One hundred thirty-one books were added during the year. Of these, fourteen were gifts. The general circulation has been about the same as last year, but that at East Rindge has been better than for a number of years. We have not been able to keep count of all the books let out in that village, so that the total circulation as given in my report is considerably lower than it should be, but in other respects the new system works well.

Two boxes of books have been collected and sent away for the camp libraries. The Red Cross has continued to meet in the art-room; and all available space in the library has been devoted to war bulletins and posters, and conservation leaflets.

The Youth's Companion, Outlook, Modern Priscilla, Union Signal, and McCall's have been given or loaned by friends of the library.

Two ancient bullet moulds were given to the museum by Mr. Arthur Wellington, and a copy of the Rindge Evening Journal, published in 1861, "a very eventful period in the world's history." was given by Miss Ware.

Following is the table of circulation for 1918:

	Books	Daily Average	West Rindge Library	Juveniles
Jan.	186	21	17	59
Feb.	225	28	13	78

March	260	29	10	74
April	263	33	13	106
May	198	25	25	84
June	237	26	23	71
July	306	34	23	92
Aug.	280	31	13	70
Sept.	188	24	9	36
Oct.	255	28	7	65
Nov.	199	22	6	47
Dec.	170	24	3	50
Totals	2767		162	832

The different classes stand as follows: Fiction, 2176; Useful Arts, 96; Fine Arts, 40: Socialogy, 52; National Science, 63; History, 162; Travels, 60; Biography, 54; Miscellaneous, 64. Unbound magazines 378 numbers.

Largest daily circulation of books, 62.

Upon Comparing the books on the shelves with the shelf-lists I find that only *two* books of non-fiction and a very few fiction have been lost since the library was first started, although the library has been absolutely *free* to anyone wishing to borrow books.

Respectfully submitted,

ELLA M. BRIGHAM,
Librarian

Report of West Rindge Branch Library.

FOR THE YEAR ENDING DEC. 31, 1918

Whole number of books circulated, eight hundred and twenty-nine (829.) Of this number sixty-nine were from the Ingalls Library, and circulated through the Branch Library.

The different classes stand as follows, Fiction, 520; Sociology, 51; Useful Arts, 34; Fine Arts, 16; Poetry, 35; Natural Science, 15 Philology, 18; Travels, 11; Biography, 29; Modern History, 16; Religion, 15; General work, 10; Unbound Magazines, 45; Juvenile, 238; Miscellaneous, 13.

Through the continued interest, and kindness of Miss Ware about seventy-five new books have been added during the year. Among them are a number, which are of practical use to mothers and teachers in training children under their care. Nearly one hundred books were taken from the Library and sent to Camp Libraries for the boys in service.

School district No. 3 make very good use of the Library.

Respectfully submitted,

M. LIZZIE WETHERBEE,
Librarian

Report of the Ingalls Memorial Library.

To the Selectmen of the Town of Rindge:

The Report for the Ingalls Memorial Library for the year 1918 can be very brief. The circulation here, as at the West Rindge Branch, shows a decided decrease, owing largely to the War demands which have left little time for leisure. Rather more books than usual have been added, a few gifts have been made to the Museum, and the Art Room has continued to be the centre for the Red Cross work. It was always the wish of Mr. Wallace that this Room should be used as a community Centre for the Town, and the Trustees feel that in the establishment of the Red Cross work in this room, they have carried out the desire of the generous founder. As repairs are constantly needed, and new books always to be supplied, we ask for the appropriation from the Town of $300. in addition to the interest on the Town Note.

Report of the Superintendent of Schools

To the School Board of Rindge:-

I submit herewith my first annual report, the fifteenth of the series under district supervision.

Much of my time during the half year I have been with you has necessarily been taken in attending to the routine work and in getting acquainted with your school conditions. This report will be limited to recording certain things which ought to find a place in every school report and to making a few specific suggestions.

At the opening of the school year new teachers were placed in all the schools except West Rindge where Miss Counihan has continued the excellent work that she did last year. This is, I am sure, one of the best rural schools in this section of the state. The work has been well done and there appears to be the pleasant relation between pupils and teacher that is so much to be desired. In this school the problem of supervised play, also, seems to have been successfully worked out.

The two schools at the Center under Miss Rollins and Miss Buxton have also made a good showing. The work of the grammar grades has been exceptionally good. The pupils appear to have a thorough understanding of their work and a desire to advance. The primary school has been small in numbers and has fallen off since the school was closed on account of the influenza. The remaining pupils lack something of the inspiration of numbers, but Miss Buxton has been doing conscientious work and the results

of the last few weeks have been more pleasing than was the case during the first term.

In both the Center schools the teachers have actively taken hold of the matter of supervised play which is to-day an important part of every well organized school.

The school at East Rindge has enrolled 13 pupils in grades one, three, five, six and eight. This school was taught until January 21st by Miss Hazel Wetherbee, a graduate of Keene Normal, who has had one year's experience in the schools of Newport. Believing her to be better fitted for primary school work entirely than for a mixed school of several grades, with your permission, I transferred her to the new primary room in East Jaffrey, and Miss Grace Coggins of Keene is to take up the work in this school in February.

Last spring a small school was opened in the camp at Hubbard Pond. Several more pupils were present to begin the work in September and Miss Mabel L. Story was secured as teacher and a school of eight pupils has been taught in one of the company's camps. This little school has done excellent work. At the end of the present school year the work at this camp will probably be completed and this school will not be needed another year.

In spite of the fact that the primary school at the Center is so small I hesitate to recommand combining the two schools for another year. I think the lower grades need all the individual attention they are now receiving which they could not have if combined with the higher grades, and in order to properly fit the grammar grades for high school work they, too, need as much attention as one teacher can give them.

In common with other New Hampshire, and in fact practically all New England localities, the Rindge schools lost considerable time on account of the epidemic of influenza. East Rindge was more fortunate than the rest of the town and lost less than two

weeks. After Christmas West Rindge suffered a second time and is now behind the schedule of the rest of the town.

With the exception of the Hubbard Pond school, which can be closed permanently in June I recommend the continuance of the schools throughout the town as now constituted. They are all good schools. well equipped, and do not have the disadvantages to contend with that we find in the manufacturing centers, and are a distinctly higher type than the average run of schools in rural communities.

The total enrollment of your schools is not large and the amount of supplies needed for another year will be moderate. They are fairly well supplied with text books. From time to time we need to add a few, but under the present price of books I shall not advocate buying any more heavily than necessary. Another year will doubtless see books and supplies at more nearly their normal price.

There seems to be no reason to consider shortening the school year as has been suggested in the past. Thirty-six weeks is short enough and I do not see how the year could be shortened much without somewhat lowering the standard of work.

In closing I wish to thank the citizens for the support they have given me, the school board for their help and co-operation; and the teachers for their loyalty and good-will. It is only as we all work together that the best results can be obtained.

Very truly yours,

LEWIS S. RECORD,
Superintendent of Schools

East Jaffrey, N. H., January 31, 1919.

Report of the Superintendent of Schools

To the School Board of Rindge:—

I submit herewith my second annual report, the sixteenth of the series under district supervision.

Miss Alice D. Counihan was secured for a third year at West Rindge and Miss Grace E. Coggins who taught the last half of the previous year at East Rindge consented to return. In view of the fact that both these teachers received attractive offers to accept larger and better paying schools I feel that these communities were especially fortunate.

The two positions at Rindge Center were not easily filled and it was found necessary to start these schools a week later than at East and West Rindge when teachers were finally secured.

With an enrollment of 23 at West Rindge there are pupils in seven out of the eight elementary grades. This makes an average of slightly over three pupils to a grade. The state program as outlined allows of but comparatively few combinations, and this means that the recitation periods must be short. It is no light task that a teacher assumes in attempting to guide the pupils of so many grades over the work outlined. A recent test given in over a dozen schools to the pupils of three grades showed a larger percentage of excellent and good papers in this than in any other school, while the best paper written in any school was by a former pupil of this school now in a room of a single grade.

The average membership of both schools at Rindge Center is larger this year than last. The need in the primary school has been for a thorough and constant drill in the fundamental processes. This need is being met and the progress during the weeks since the Christmas vacation has been encouraging.

The grammar school at Rindge Center is being taught by Mrs. Hannah C. Woods, a teacher of excellent training and wide experience. She has shown a thorough understanding of the situation and the progress shown has been pleasing.

The school at East Rindge has shown a slightly larger enrollment than last year, and as in the case at West Rindge, pupils in seven of the eight grades have been represented. This is one of the pleasantest and most homelike schools in my district, and despite the large number of grades the work done is of a good quality.

The school at Hubbard Pond which was open for 31 weeks during last year closed May 8th as the lumber camp moved away at that time.

The big problem facing not only Rindge but every other rural community in New Hampshire is whether we shall be able to retain or secure competent teachers for another year. I would call your attention to the note of warning sounded by Gen. Frank S. Streeter, Chairman of the State Board of Education at the Durham conference on Dec. 31, 1919.

In the course of an able discussion of the situation he said:

"Unless our public schools can be provided with competent teachers, we may as well voluntarily petition ourselves into educational bankruptcy. Schools and schoolhouses without teachers need no administration. * * * * *

Within the last three months the educational world has become seriously alarmed by the withdrawal of public school teachers from their profession and the necessity of putting incompetent and ill-trained substitutes in their place. It is au-

thoritatively stated that twenty-two per cent of the total teaching force of the country have dropped out of the profession in the last year. The reason most generally assigned for these conditions is the inadequacy of salaries to hold teachers now in service or to attract new ones to that service."

Quoting from the Bulletin of the National Education Association regarding recent increases of salaries he continues:

"The increases are not sufficient, however, to remove the danger. Over 100,000 positions in the public schools today are vacant or filled by teachers who cannot pass the minimum tests for teachers' certificates. Strong teachers are leaving the profession because of inadequate pay. Positions are being filled by immature and untrained teachers. It is estimated that the number of teachers below twenty-one years of age has, during the last year, increased not less than twenty-five per cent. The attendance at teacher training institutions has decreased over twenty per cent since 1916. It is high time, not only for teachers but for the public, to give serious consideration to the teacher problem."

"There are now 50 schools in New Hampshire closed because of lack of teachers, and probably 80 more will be closed within a few weeks. From statistical experience we may expect there will be withdrawals of between 400 and 450 teachers at the end of the present year. Our two normal schools will graduate less than 100, which is about the usual number. There is no certainty of filling the vacant places with a sufficient number of competent teachers.

The State Board frankly admits that the situation is serious and is a cause for anxiety, but it is not ready to admit that New Hampshire cannot protect itself and its schools against the threatened danger.

It is absolutely essential, however, that our school boards and all other citizens interested in our schools should realize that an emergency immediately confronts us and prepare themselves to

co-operate with the State Board in all sensible and practical ways to meet the emergency."

In the emergency that has weakened the school systems throughout the country during the present year Rindge has been thus far extremely fortunate. In spite of the difficulty in procuring teachers for these smaller schools with so many grades we have today four normal trained and experienced teachers in our schools doing work that will readily command salaries far in excess of what are now being paid. That teachers have loyally stood by their contracts during this period of unrest speaks well for the honor of the profession.

Our problem is not only one of providing a generous increase in salary but in showing the appreciation that the work done by these teachers deserves. Our teachers are elected for an entire school year and sign a contract to serve out their terms, and during their period of service they should receive the heartiest co-operation from the homes in their district. The superintendent tries to inspect the work in a constructive manner. Frequent conferences with the several teachers have, I believe, been of some service. Where a helpful suggestion has been needed it has been made, and I believe in every instance, has been pleasantly received and appreciated.

The normal conditions of school life allow regular promotions. If a child is physically able to attend school; if he brings with him the co-operation of his parents; if he is not tied hand and foot by outside engagements; if he intrusts his welfare to his teacher, the doubts about his promotion are in the imagination.

Thanking you, members of the school-board, for the loyal support you have given me, I am

Very cordially yours,

LEWIS S. RECORD,
Superintendent of Schools

East Jaffrey, N. H., January 31, 1920.
